Alfie is very sweet and loving. He enjoys his daily walks or being in the paddock and likes meeting new people. He can be a little timid at first but does not take him long to come out of his shell then he can be lively when he gets excited. Alfie is looking for a family that will help him with further training as the only command he knows is sit and will pull on the lead then just stop in front of you. Please call the Birmingham Centre if you can off Alfie a forever home.
